

BEEF CATTLE MINERAL + TUBS

Complete your nutrition program with quality supplements. Check out CPC's mineral and tub line at cpcfeeds.com

CPC LIVESTOCK

Today, more than 100,000 cattle are fed on our farm annually and prove the CPC Program works.

70% of cattle are purchased from sale barns across the southeast, with the other 30% being sourced locally from farms in the surrounding areas.

Following procurement, cattle are placed directly on the CPC feeding program featuring CPC Jump Start and CPC Grower

We have **100,000 REASONS** to believe.

BEEF FEED

More than just a brand, CPC takes the guess work out of feeding cattle the right way.

CPC is built on generations of cattle farmers committed to achieving optimal performance through quality animal nutrition. We make feed that producers trust, with the same high standards we expect for our own livestock.

More than 100,000 cattle are fed on our farm annually and prove the CPC program works!

Backed by our own experiences, we are confident that we can serve your cattle nutrition needs.

Proven on our farm. Made for yours.
